TECHNICAL EXPERTISE

- Python • JavaScript • TypeScript
- Next.js • React • Tailwind CSS
- Supabase • Streamlit • Vercel
- SQL • Pandas • Data Analytics
- Machine Learning • Generative AI
- Prompt Engineering • REST APIs
- Git & GitHub • Agile • UI/UX
- Microsoft Fabric • Power BI (Basics)

KEY CREDENTIALS (IN PROGRESS)

- Microsoft DP-600: Fabric Analytics Engineer Associate (In Progress)

EDUCATION

Unity University

BSc in Computer Science

2007 – 2010 (Coursework Complete)

Only two courses remaining

THOMAS DEBEBE

FULL-STACK DEVELOPER & AI PRACTITIONER

Software Engineering • Artificial Intelligence • Data & Analytics • AI-Powered Solutions

PROFESSIONAL PROFILE

Full-Stack Developer and AI Product Builder combining software engineering, machine learning and data analytics to turn ideas into practical, user-centered solutions. Skilled in AI-enabled workflows, data-driven decision-making and building scalable web applications.

PROFESSIONAL EXPERIENCE

Product Engineer | Self-Initiated / Freelance

Feb 2025 – Present | Ethiopia / Hybrid

- Design, develop and deploy full-stack and AI-powered products that solve real-world problems and deliver data-driven insights.

IT Technician | Bold Endeavor

Jan 2022 – Present | Addis Ababa, Ethiopia / Hybrid

- Provide technical support, troubleshooting, system maintenance and process improvements to ensure smooth IT operations.

AI Training Specialist (Amharic) | RWS Group

Apr 2026 – Present | Remote / Contract

- Contribute to AI training workflows involving Amharic language data and linguistic quality.

Machine Learning Specialist | Future Interns

Apr 2026 – Present | Remote / Internship

- Apply machine-learning concepts through practical projects, experimentation and modeling.

FEATURED PRODUCT

QuantoraPro

AI Trading Analysis Platform • Python • Streamlit • Data Analysis • AI

Completed end-to-end application that transforms market data into structured trading analysis and actionable insights through an interactive web interface.

Live Demo: **quantorapro.streamlit.app** GitHub: github.com/Tommyjah/QuantoraPro

SELECTED PRODUCTS

Ethio Journey

Travel & Logistics • *Next.js / TypeScript*

Ethiopia-focused travel platform with premium itineraries, vehicles and booking system.

CRMS

Change Management • Next.js / Supabase

Secure workflow system for submitting, managing and approving change requests with automated reporting.

Yelpia

Local Business Discovery • Next.js / Supabase

Discovery experience for restaurants, hotels and local businesses with smart search.

Talenta

AI-Guided Learning • AI-Assisted Development

Personalized learning platform concept focused on courses, career growth and modern user experience. Live: **talenta-aivision-learn.lovable.app**
